

# CONNECTWISE MANAGE INTEGRATION

As a provider of enterprise-grade cloud services, AppRiver is trusted by partners everywhere to bring value to business. But we're also expanding our reach by now providing platform integration with ConnectWise® Manage™, one of the industry leaders in business management software. Setup in AppRiver's Partner Portal is simple and the integration with ConnectWise Manage provides our partners with even more value and efficiency, saving them both time and money.

## Features

- Sync AppRiver customers with ConnectWise companies
- Sync AppRiver products to ConnectWise
- Automatically update user counts on existing ConnectWise additions
- Supports prorated additions
- Detailed logging of all processed AppRiver to ConnectWise billing events

## Benefits

- The AppRiver ConnectWise integration saves Partners valuable time by removing the need to manually enter license count changes in ConnectWise
- Prorated additions for mid-cycle license adds are automatically created in ConnectWise
- Significantly reduce the time required on a monthly basis to reconcile AppRiver Charges
- Free integration for all AppRiver Partners
