

*STAY IN CONTROL, EVEN
WHEN THE WORST-CASE
SCENARIO HAPPENS.*

Email has become such an essential part of business. But your business shouldn't go down just because your mail server goes offline. And you know it will at some point due to events such as natural disasters, power outages or even scheduled maintenance. With Email Continuity

from AppRiver, your email stays within reach at all times from any device, regardless of what happens in the world around you. Your business continuity plan is simply incomplete without Email Continuity.

Always Accessible. Always On. From Anywhere.

Email Continuity provides failsafe protection for your email service at all times - so your email is always accessible. If your primary mail server experiences an outage, all inbound messages are spooled at the spam filter until the primary mail server is back online. During the outage, ECS users can access the last 30 days of inbound messages and continue to send and receive messages from their ECS mailbox.

Features

- Always on
- Accessible from any device
- IMAP/POP functionality
- Keeps your customers from getting “bounced” messages
- Includes Email Security phishing and malware protection
- Outlook Web App access
- Auto-provisioning via the Partner Portal
- Choice of datacenter locations (US or Swiss)

Backed by Award-winning Phenomenal Care® Support

All products are backed by our award-winning Phenomenal Care® support team, which is US-based and available 24/7/365 by email, phone or chat. Whether your business needs Email Continuity or any of our other cloud services, we provide a phenomenal customer experience.
